Dear Professor Paganetto,

Re: Investigation of a cooperative peace and environment project

We welcome project proposals on the establishment of cooperative peace and environment projects – namely the establishment of a Ecological Centre for Peace, with the cooperation of the ENEA, the Society for the Protection of Nature in Israel (SPNI) and Bereshit Le'Shalom organization.

This centre would be located in the Galil at the Har Meron Field School, on the border between Israel and Lebanon.

We promote every project that enhances cooperation between Israel and Europe and encourages ecological, social, cultural and/or financial development in the Galil.

We welcome a proposal and accordingly will review it. We consider promote it with you to the best of our abilities.

Yours sincerely,

Gershon Peleg

Chief Executive Officer, SPNI
