To whom it may concern,

Subject - Beresheet LaShalom Foundation

Kibbutz Tzivon, located in the north of Israel near Mount Meron and Kibbutz Sasa, is an ecological Kibbutz with a mission to distribute and spread ecological and permaculture concepts and resources to it's members and to the surrounding area.

Kibbutz Tzivon is in the process of planning and establishing an ecological education center which will help Tzivon achive it's vision and goals.

After Meeting Beresheet LaShalom Foundation founders, Angelica Edna Calo` Livne and Yehuda Calo` Livne and being introduced to their work, we highly appreciate their work and see a wide range of possibilities for cooperation between our ecological education center and Beresheet LaShalom Foundation ecological center for peace initiative.

In the upcoming months Kibbutz Tzivon and Beresheet LaShalom Foundation will formulize a plan which will define the ways to integrate Beresheet LaShalom Foundation activities in Tzivon's ecological education center.

Sincerely,
Yuval Sela
CEO
Kibbutz Tzivon
